

SuccessFactors: Navigating a Calibration Session

Start a Calibration Session

To Start a Calibration Session, go to “Home” and select “Calibration”.

The session(s) the HR Champion has created will appear in the Sessions List.

Select which session to initiate.

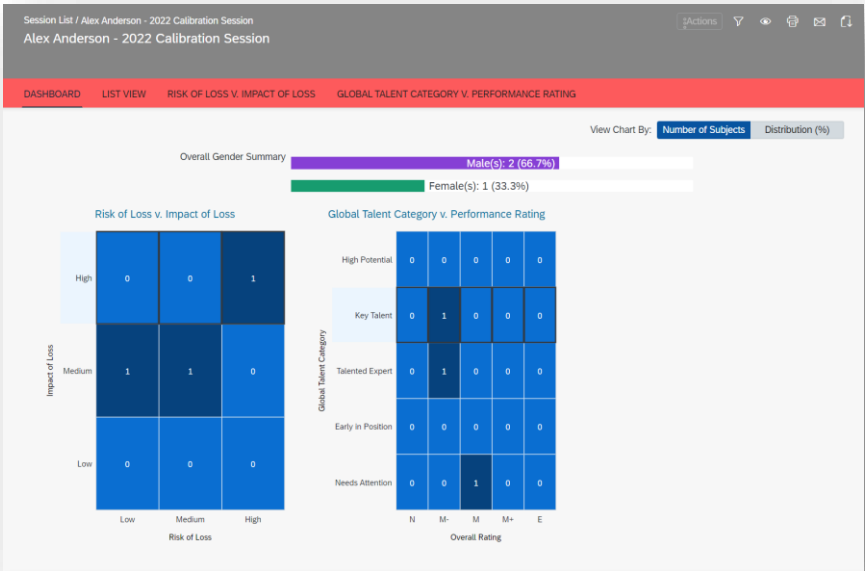

Dashboard View

The HR Champion will see the dashboard view of the subjects in the selected session.

Dashboard View displays: Overall Gender Summary, Risk of Loss v. Impact of Loss Summary, and Global Talent Category v. Performance Rating Summary.

Note: This view will provide the HR Champion with an aggregate view of a particular session of calibrated Team Members.

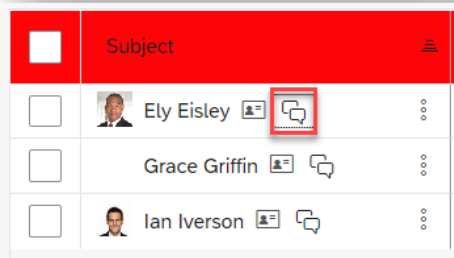

List View

List View handles large amounts of data and allows users to make rating and comment changes directly in the list view.

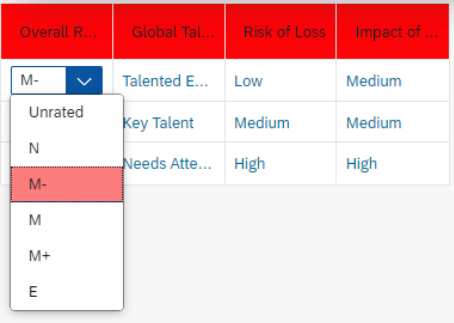

The screenshot shows the 'Session List / Alex Anderson - 2022 Calibration Session' list view. It includes tabs for DASHBOARD, LIST VIEW, RISK OF LOSS V. IMPACT OF LOSS, and GLOBAL TALENT CATEGORY V. PERFORMANCE RATING. The list view displays a table of subjects with columns: Subject, Gender, Impact, Risk of Loss, and Performance Rating. The table shows three subjects: Ely Easley (Male, Medium, Low, PLANNING), Grace Griffin (Female, Medium, N/A, SOFTWARE), and Ian Iverson (Male, High, N/A, PAYROLL).

Subject	Gender	Impact	Risk of Loss	Performance Rating
Ely Easley	Male	Medium	Low	PLANNING
Grace Griffin	Female	Medium	N/A	SOFTWARE
Ian Iverson	Male	High	N/A	PAYROLL

The HR Champion can **Add Comments** during the discussion of a particular team member. Managers can see comments added but cannot create comments.

The HR Champion can change the Overall Rating, Global Talent Category, Risk of Loss, and Impact of Loss in the List view. Managers do not have the ability to change these categories in this view.

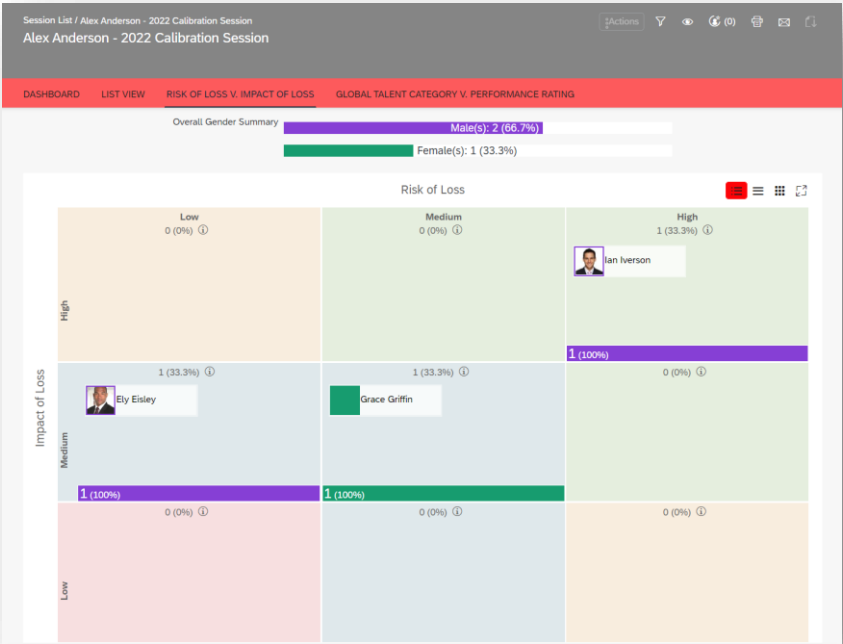

Note: Changes in this view need to be saved and finalized in order to feed to Performance and the Team Member Profile.

SuccessFactors: Navigating a Calibration Session (continued)

Risk of Loss V. Impact of Loss

This view is a Matrix view that allows the HR Champion to move team members into desired Impact of Loss and Risk of Loss during discussion.

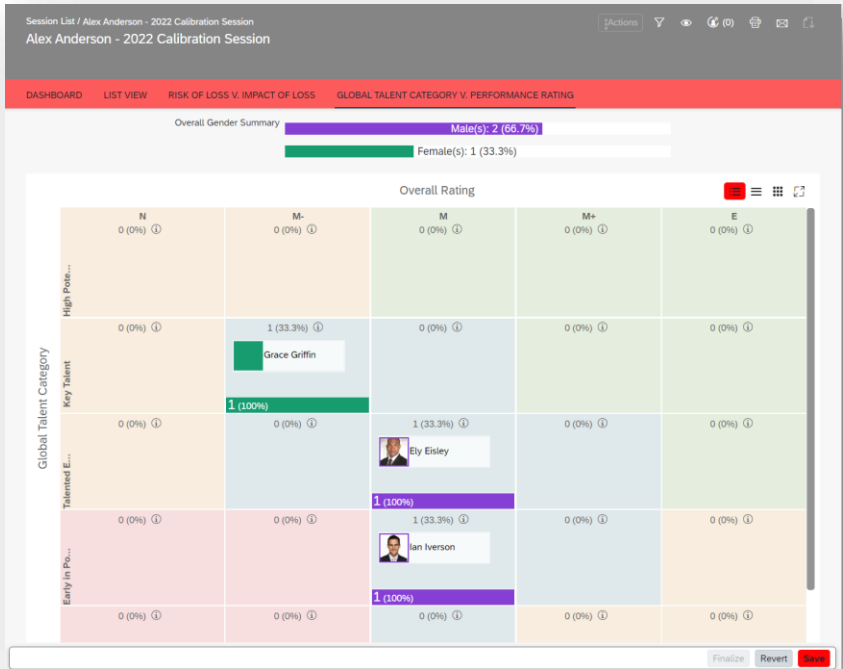

Note: Drag and drop the team member's icon to place them in a new grid position. These changes will be reflected on the List View.

Global Talent Category V. Performance Rating

This view is a Matrix view that allows the HR Champion to move team members into desired Overall Ratings and Global Talent Category during discussion.

Note: Drag and drop the team member's icon to place them in a new grid position. These changes will be reflected on the List View.

Calibration Session Wrap-Up

The HR Champion may export the calibration data via Print Screen to create a PDF version of the data or the data can be exported to Excel.

Note: The session will need to be Saved and Finalized in order to feed to Performance and the Team Member Profile. Once finalized, you can not go back and edit the session.
