For Developers

Joule boosts ABAP Development

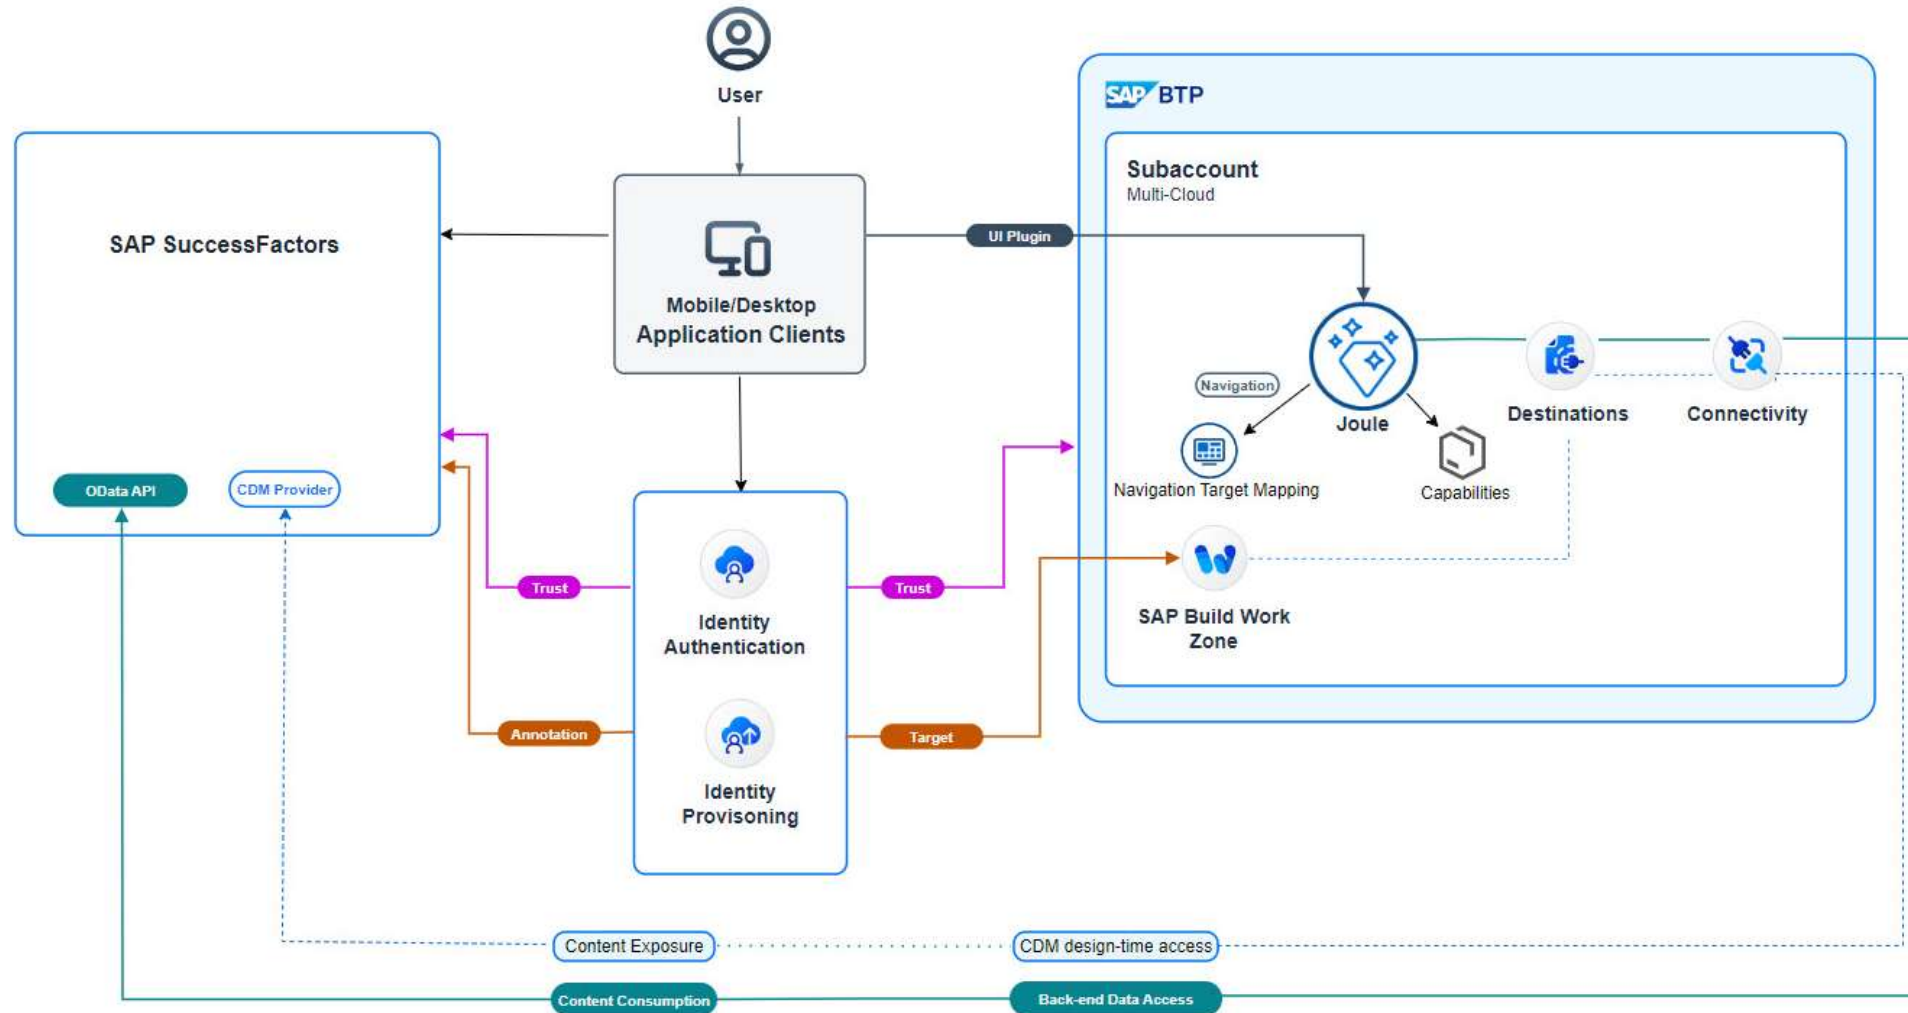

Pre-Requisites for Joule

In SuccessFactors

Joule for SuccessFactors - Architecture

Joule for SuccessFactors – technical check list

Admins

SuccessFactors

- ❑ Integrated with Cloud Identity Service
- ❑ Activated extension center
- ❑ Users has Global UserId

Cloud Identity Service

- ❑ CIS on Foundry
- ❑ User Synch between CIS and SF established to transfer the Global User Id

BTP

- ❑ Joule and WorkZone Standard Entitlement available on BTP
- ❑ CIS visible via System Landscape -> Systems

All 3 systems assigned to the SAP Company ID / Customer ID

Joule for SuccessFactors – get prepared

Admins

- ❑ SuccessFactors
- ❑ Cloud Identity Service
- ❑ BTP

SuccessFactors

- ❑ *Integrated with Cloud Identity Service*
- ❑ *Activated extension center*
- ❑ *Users has Global UserId*
- ❑ Joule API user incl. permissions
- ❑ Admin User with permissions for extension center, security center and job scheduler
- ❑ RBP Admin

Cloud Identity Service

- ❑ *CIS on Foundry*
- ❑ *User Synch between SF and CIS established to transfer the Global User Id*
- ❑ IPS permissions for Admin

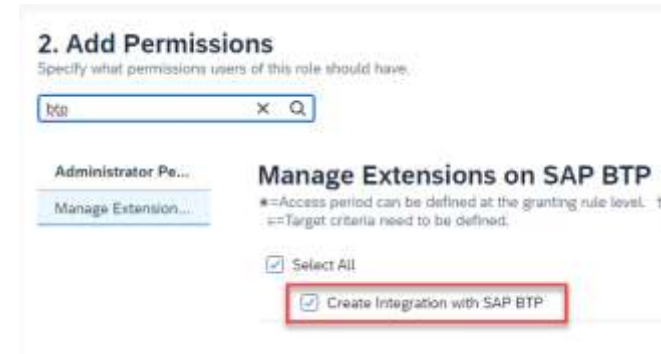

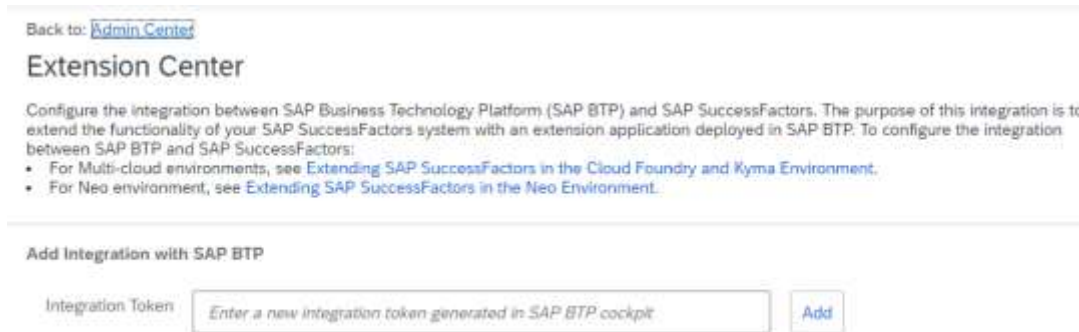

BTP

- ❑ *Joule and WorkZone Standard Entitlement*
- ❑ *CIS visible via System Landscape -> Systems*
- ❑ Global Account Admin rights assigned/available

All 3 systems assigned to the SAP Company ID / Customer ID

Joule for SuccessFactors – get prepared

- Admin needs the following permissions
 - Extension Center (if not available, please activate Extension Center via Upgrade Center before)

- Schedule Job Manager in SuccessFactors (Refresh Synthetic Group Data)
 - Permissions to Security Center -> X.509 Certificate Mapping
 - Permission Admin Access
-
- API User
 - Create an individual Joule API User
 - Assign permission “Allow Admin to Access Odata API through Basic Authentication”
 - Make sure you know the SuccessFactors Password of this user (set via reset password)

Joule for SuccessFactors – get prepared

- Know the IAS/IPS URL:
 - Admin Center >> Monitoring Tool for Identity Authentication Service/Identity Provisioning Service Upgrade
 - HINT:
 - IAS and IPS URL are the same? Very good – activation was done already with foundry
 - IAS and IPS URL different? Some additional checks are needed
- Know the IAS / IPS enablement date:
 - Depending on the enablement date we have different BTP Settings
 - Take the date from the monitoring tool or from upgrade center

Admin Center / Monitoring Tool for Identity Authentication Service/Identity Provisioning Service Upgrade

Monitoring Tool for Identity Authentication Service/Identity Provisioning Service Upgrade

Upgrade Status

Initiated on: May 17, 2024 3:32PM

The upgrade is complete.
The upgrade was completed on May 19, 2024 8:04PM and an email was sent.

More Information

Upgrade Process ID: 310002

Status: Completed

Identity Authentication Service Tenant URL:
<https://1000000000.accounts.ondemand.com>

Identity Provisioning Service Tenant URL:
<https://1000000000.accounts.ondemand.com/admin>

Admin Center / Upgrade Center

Completed Upgrades

Upgrade	Last Modified Date	Current Status	More Information	Days left for Undo	Actions
> Next Gen Admin	08/31/2015	✓ Upgrade Now - Successful		0	Undo
> People Profile	11/07/2016	✓ Upgrade Now - Successful		0	Undo
> Initiate the SAP Cloud Identity Services Identity Authentication Service Integration	05/19/2024	✓ Upgrade Now - Successful			
> Activate SuccessFactors-Identity Authentication Service Integration	05/20/2024	✓ Upgrade Now - Successful			

Joule for SuccessFactors – get prepared

- Validate Global (IAS) User Id available in SuccessFactors
 - In order to use Joule, SuccessFactors users must have a Global User ID(GUID) field populated in their SuccessFactors user profile and this GUID should match what's in the SAP Cloud Identity Authentication (IAS) user profile. This should already be in place if SuccessFactors integration to SAP Cloud Identity Services was done following best practices and a provisioning job was run to replicate user profiles from SuccessFactors to IAS. If the user replication job was not run in the past or if there were errors for certain users during the job execution, those users will not have the GUID field populated in SuccessFactors. The **Manage Login Accounts** app can be used to visualize the GUID field in SuccessFactors and compare it to the user profile in IAS. For more information on how to get access to the Manage Login Accounts application, follow [2859043 - Manage Login Accounts tool](#).

SFSF User Profile

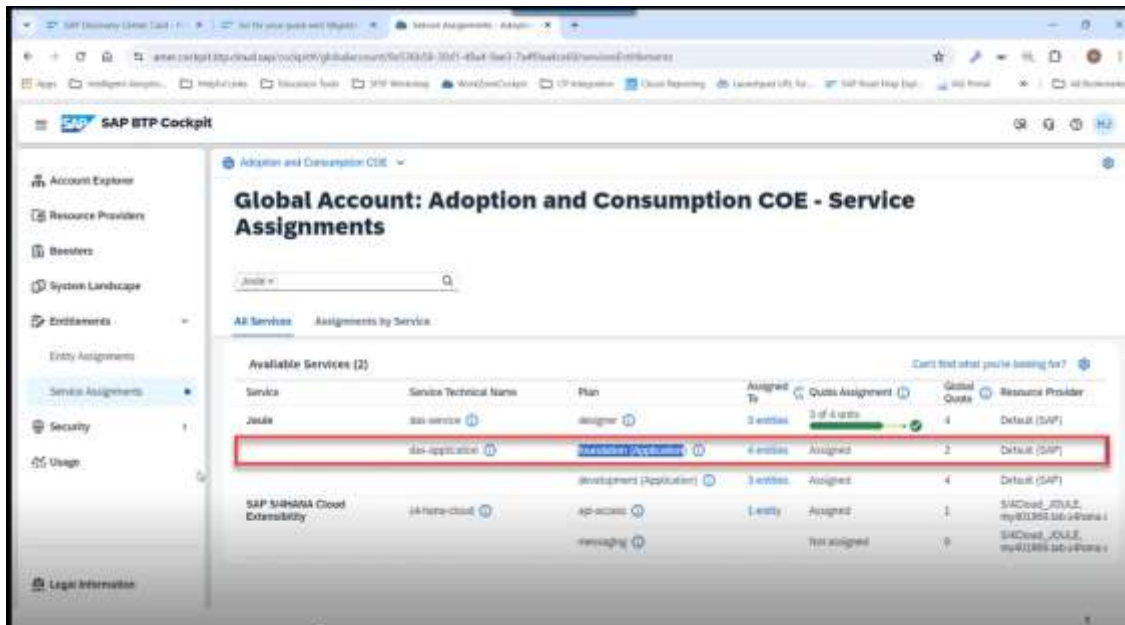

IAS/IPS

- IAS and IPS running on Cloud Identity Service Infrastructure
 - As part of the activation steps we need to leverage SAP Cloud Identity Provisioning Service to read users from SuccessFactors and provision them to SAP Build Work Zone. This requires that SAP Build Work Zone, standard edition is available as a connector under target systems in SAP Cloud Identity Provisioning Service (IPS). This connector may not be available on IPS tenants running on NEO landscapes. **It's recommended customers migrate IPS from NEO to IPS running on SAP Cloud Identity Provisioning Service (SCI) landscape.** In most cases this migration can be done in a matter of minutes. For more information on how to perform this migration, refer to the following links:
 - [Blog: Go for your quick win! Migrate Identity Provisioning tenants to SAP Cloud Identity infrastructure](#)
 - [Help Documentation: Migrate Identity Provisioning Bundle Tenant](#)

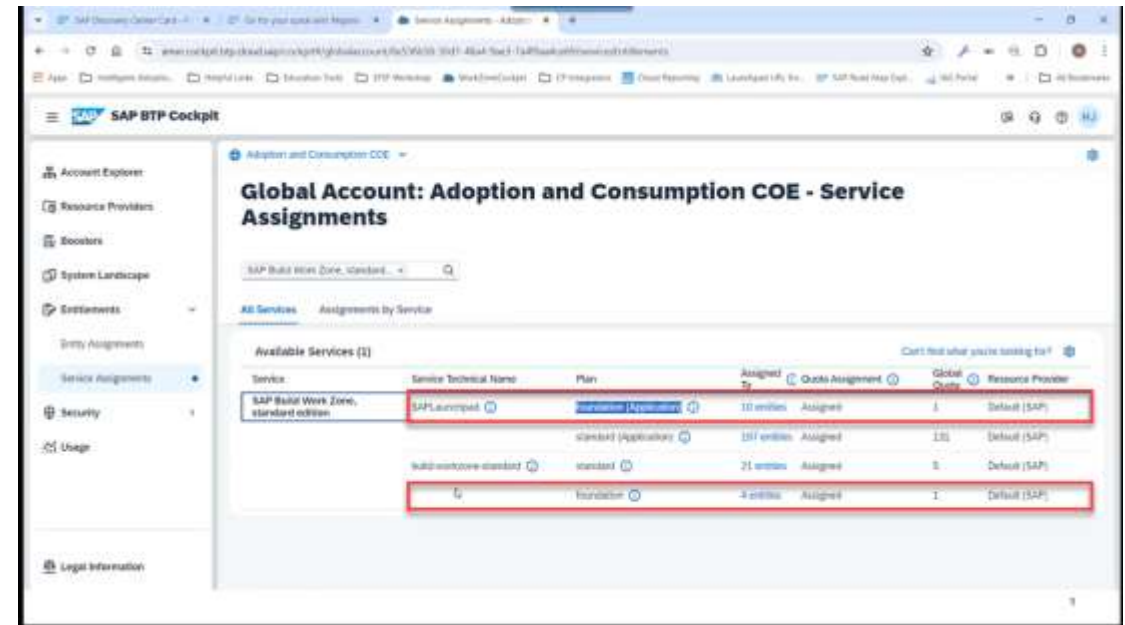

BTP - Entitlements

BTP on foundry – if you are on NEO: [3365019 - SAP Cloud Portal Service on Neo Environment will sunset on December 31, 2028 - SAP for Me](#)

Verify that your global account is configured with the following entitlements.
For more information, see [Managing Entitlements and Quotas Using the Cockpit](#).

Service	Service Technical Name	Plan	Assigned To	Quota Assignment	Global Quota	Resource Provider
Java	java-service	designer	3 entities	3 of 4 quota	4	Default (SAP)

Joule Activation Steps

Joule Activation Steps

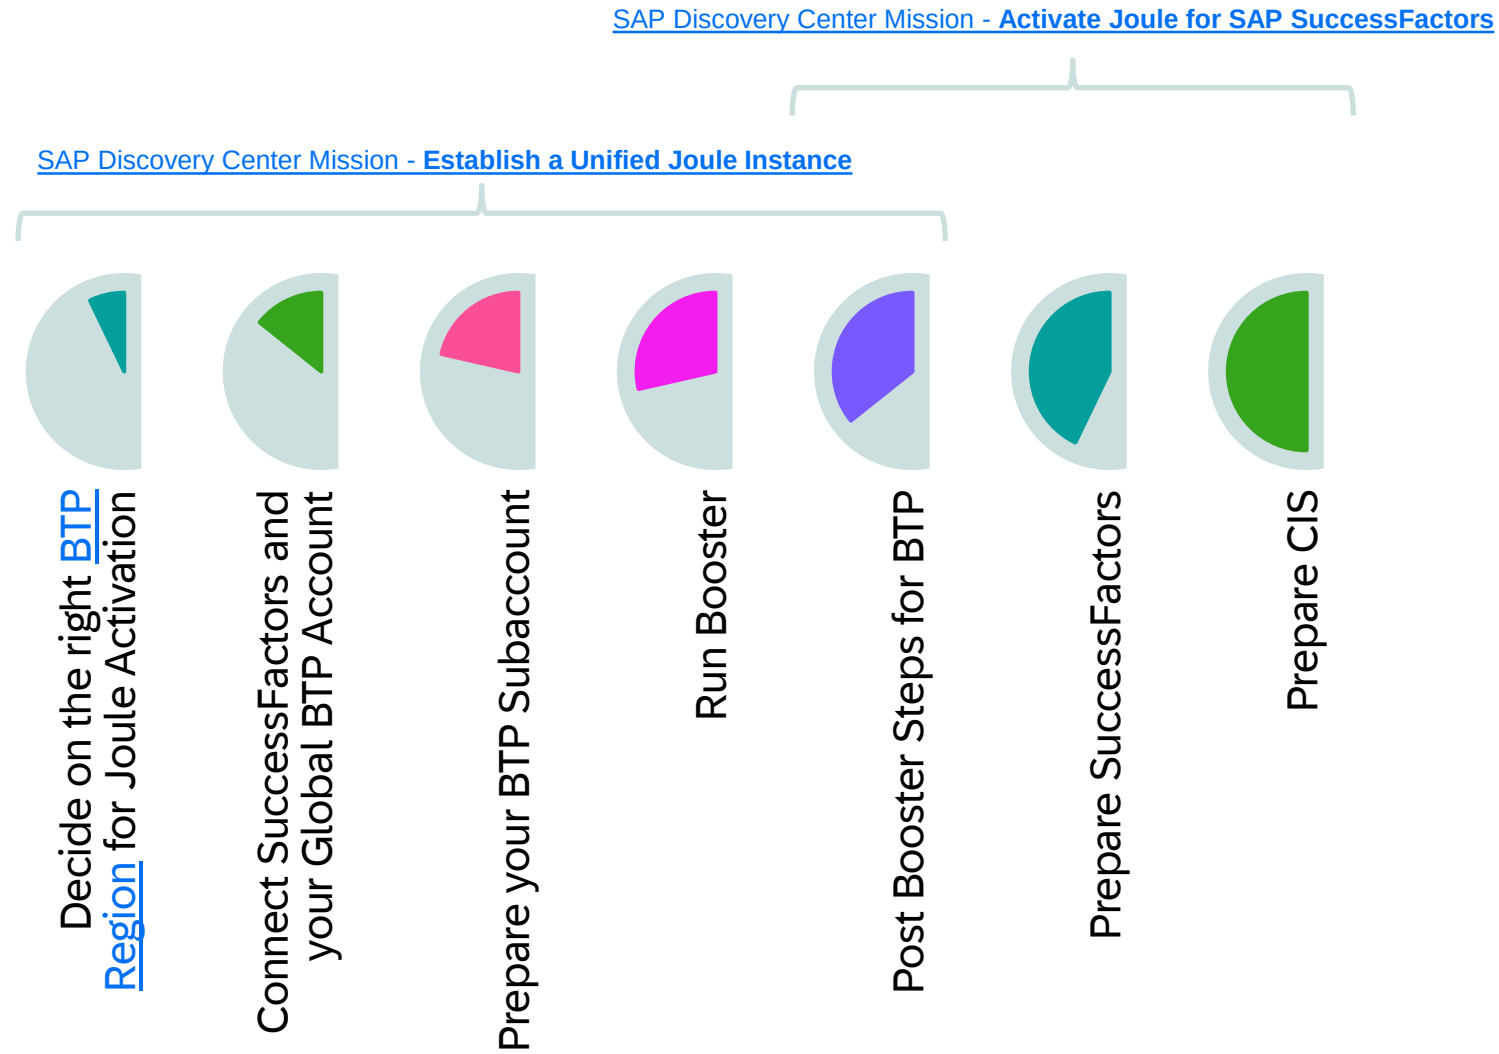

SAP Discovery Center Mission - Establish a Unified Joule Instance

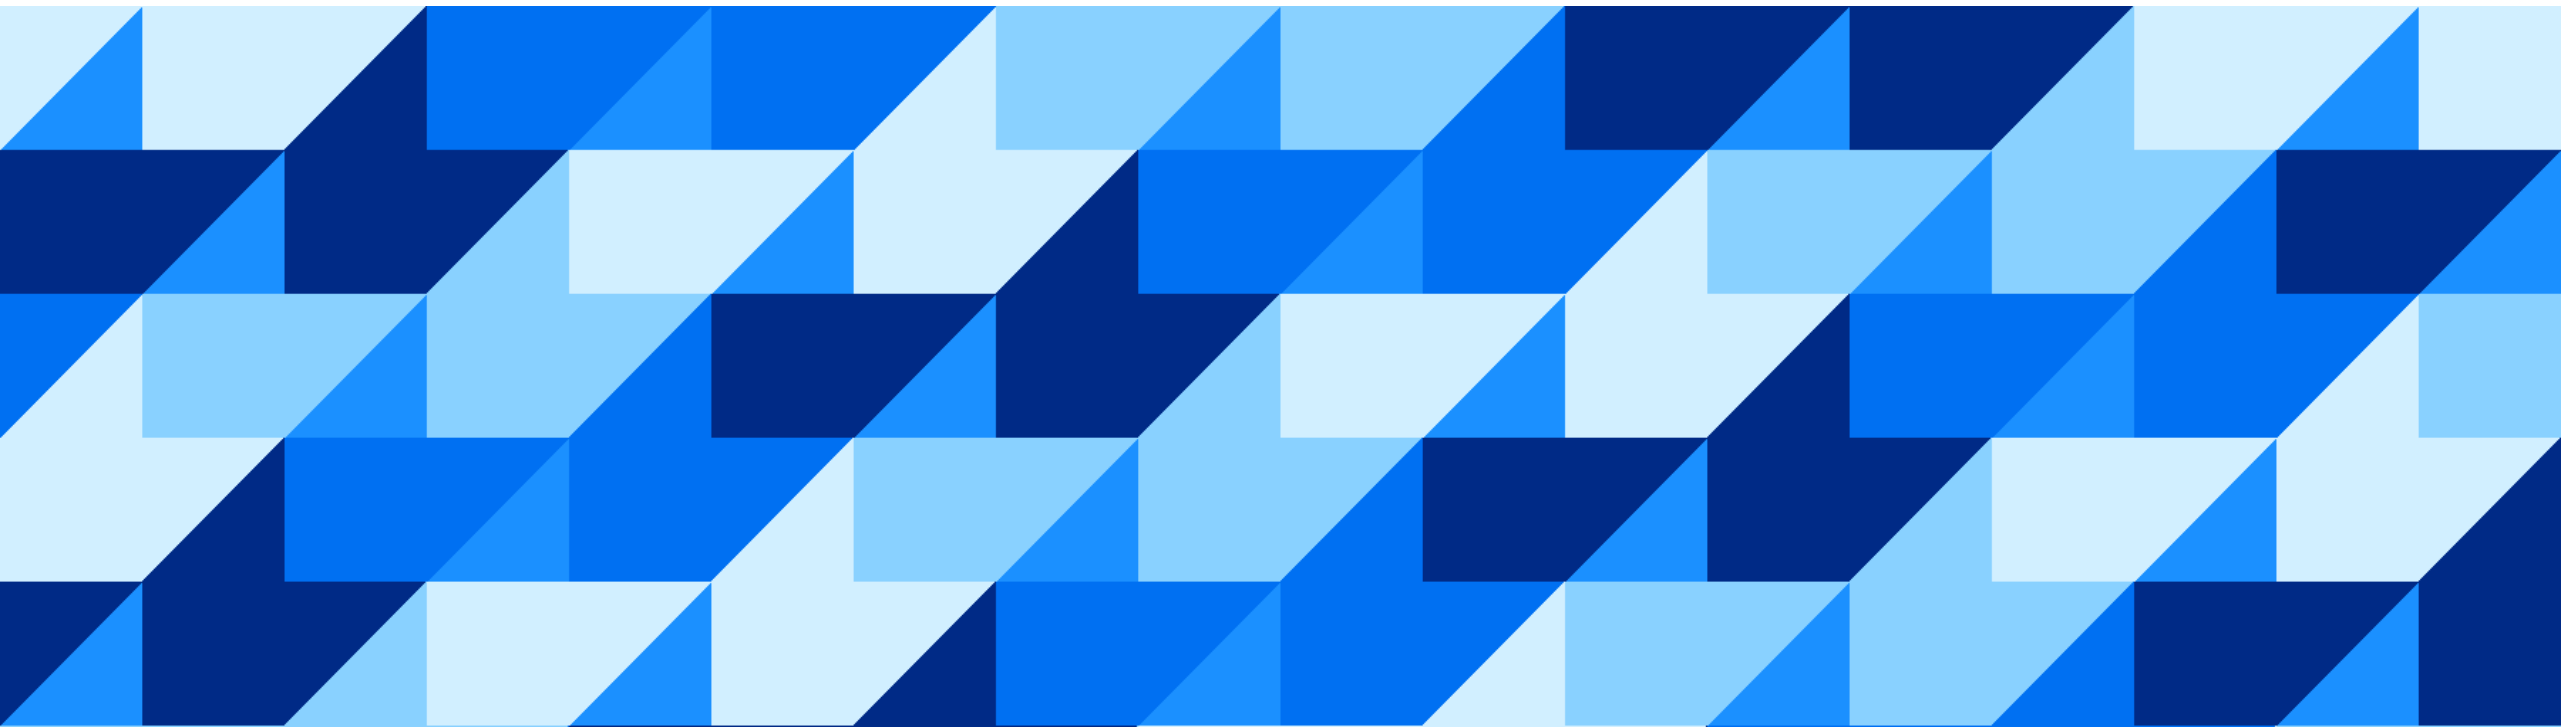

SAP Discovery Center Mission - Activate Joule for SAP SuccessFactors

Joule Activation Steps

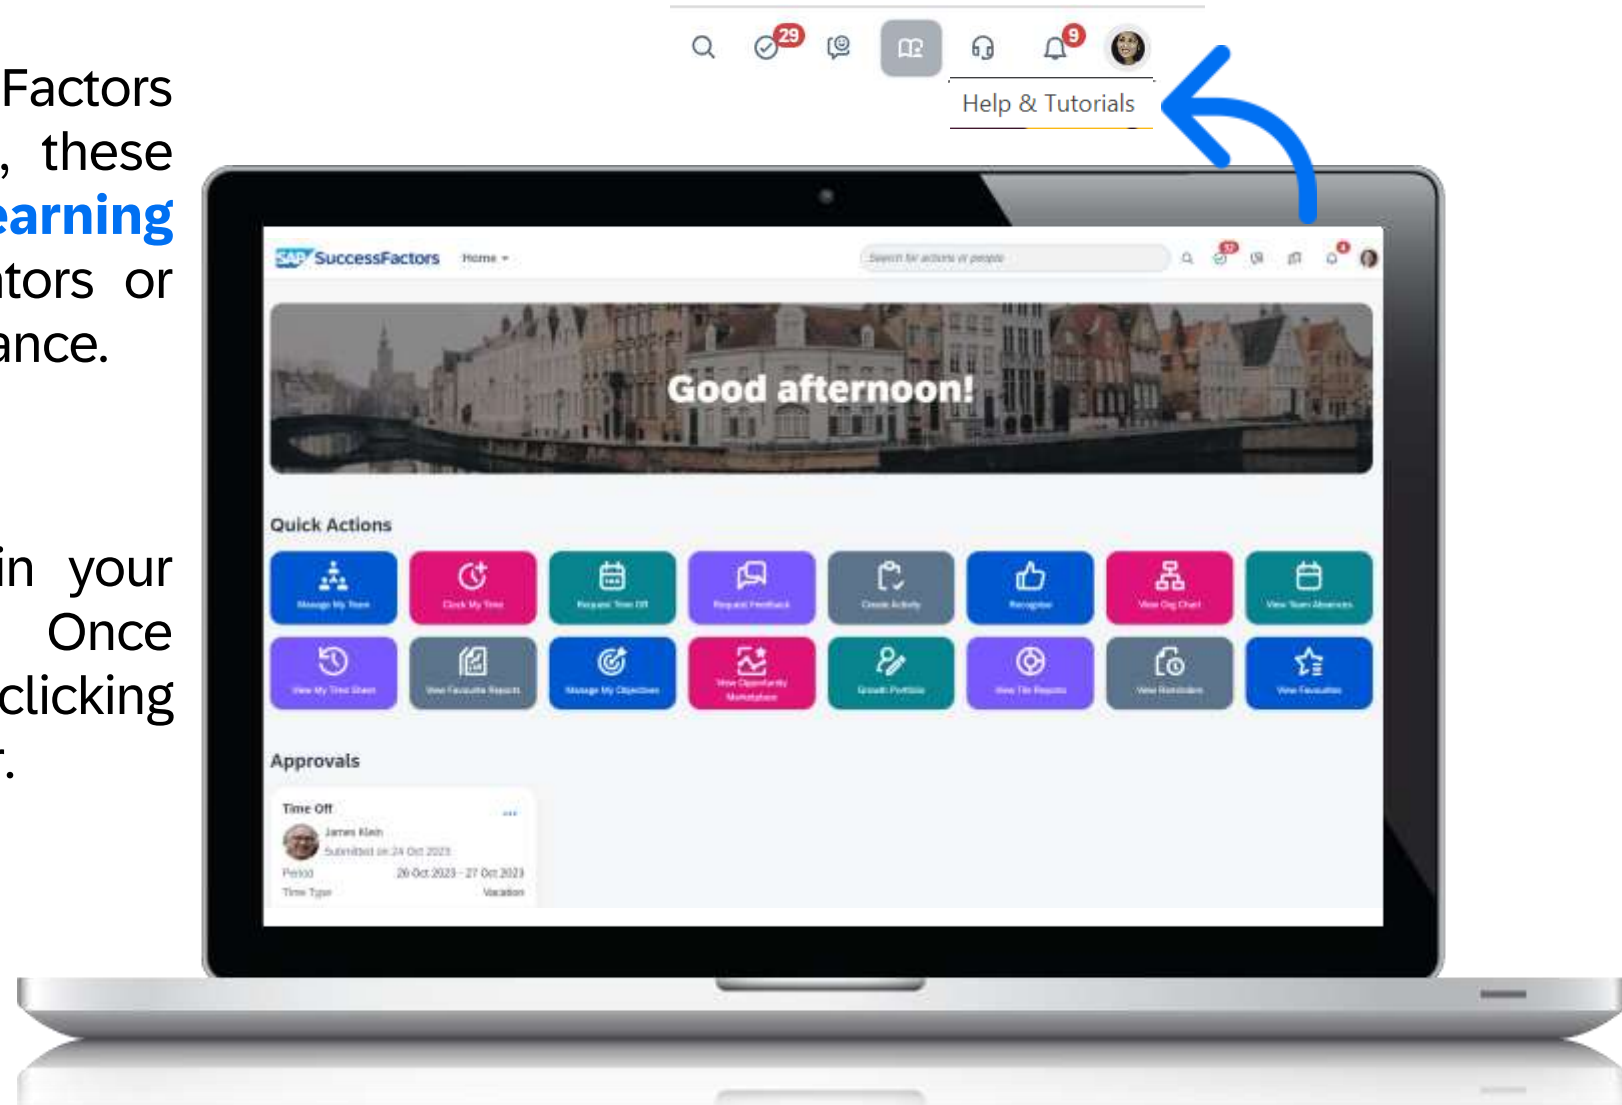

Customer Resources

Embedded Learning Tutorials

Embedded across your SuccessFactors suite and provided as standard, these context sensitive **help & learning tutorials** can provide administrators or end users with out of the box guidance.

These are available to enable in your SuccessFactors Instance today. Once enabled, they are accessed by clicking the '?' next to the action search bar.

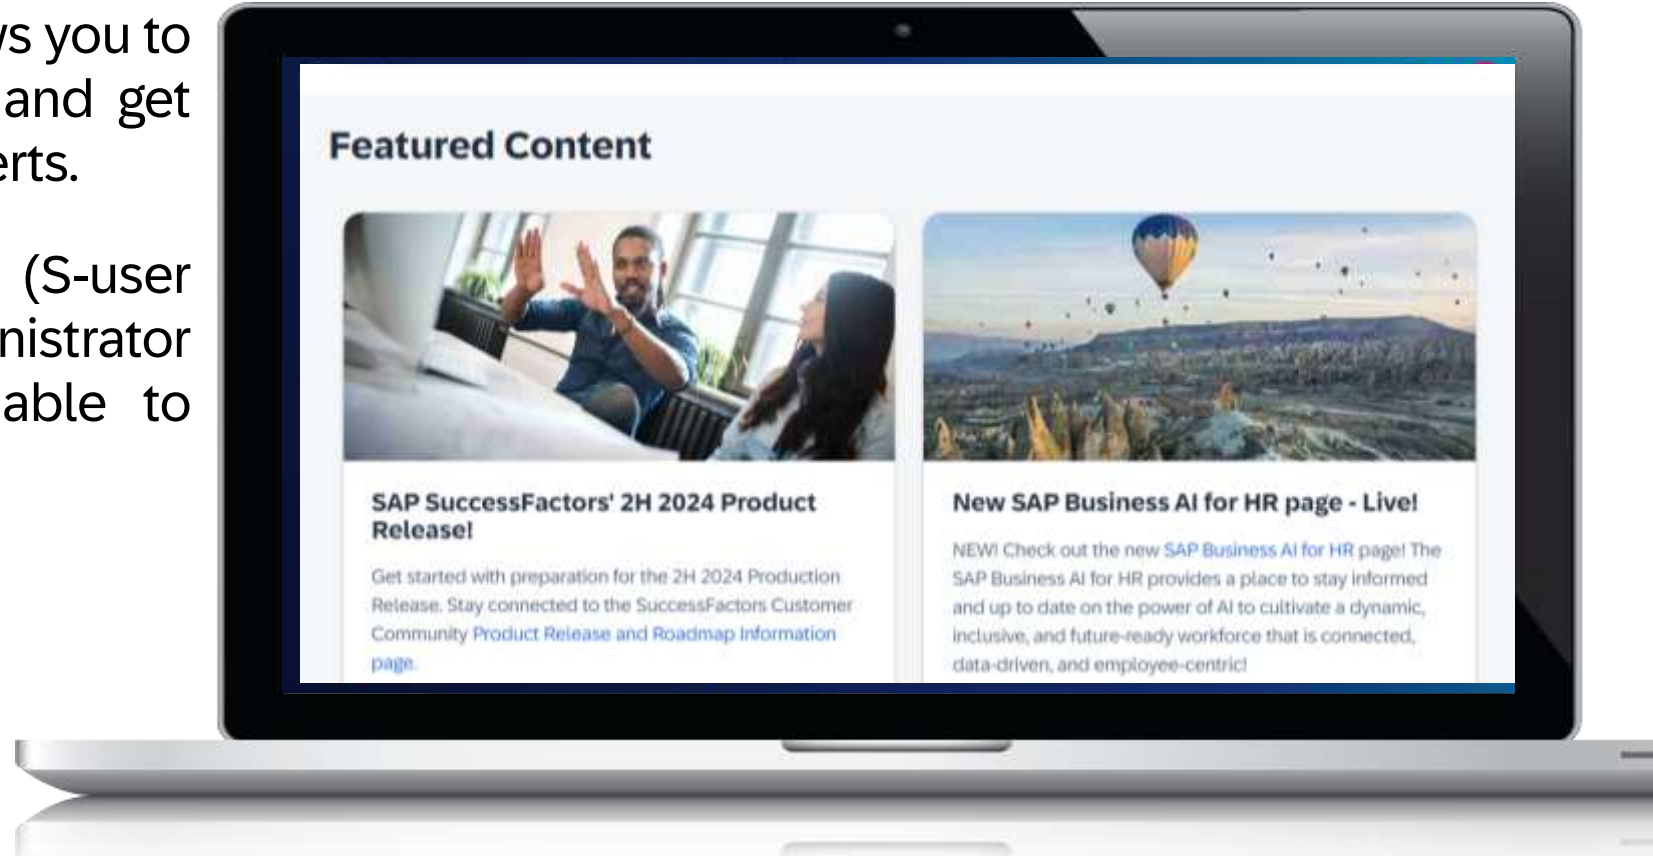

Customer Community

The **Customer Community** allows you to find solutions, share knowledge and get answers from customers and experts.

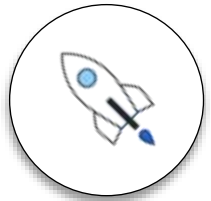

You need an SAP User Account (S-user ID) to join. Your SAP System Administrator within your Company will be able to provide you with access.

To request new S-User IDs please refer to Knowledge Base Article (KBA) [1271482](#).

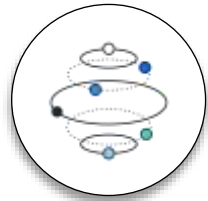

Value Map SAP SuccessFactors

Value Maps support and empowerment program which leads you through the knowledge, skills, and services needed during HR transformation journey. They provide direct access to SAP experts, collaboration forums, high-impact learning, and prescriptive guidance, to help you achieve meaningful results.

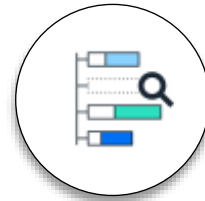

Start

your HR digital transformation journey with SAP SuccessFactors

Learn

about security and privacy implications with SAP SuccessFactors

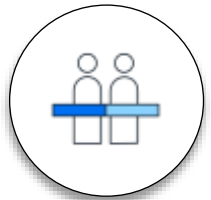

Discover

the roadmap and value of SAP SuccessFactors

Choose

the appropriate integration methodology and data migration strategy

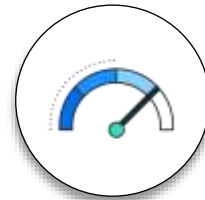

Collaborate

with SAP experts and other industry peers

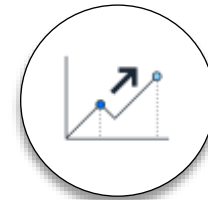

Safeguard

your go-live with SAP Enterprise Support services

Stay Current

with SAP SuccessFactors releases and innovation adoption

Extend

SAP SuccessFactors scenarios to meet your business needs

Register & Access for Value Map

Step 1

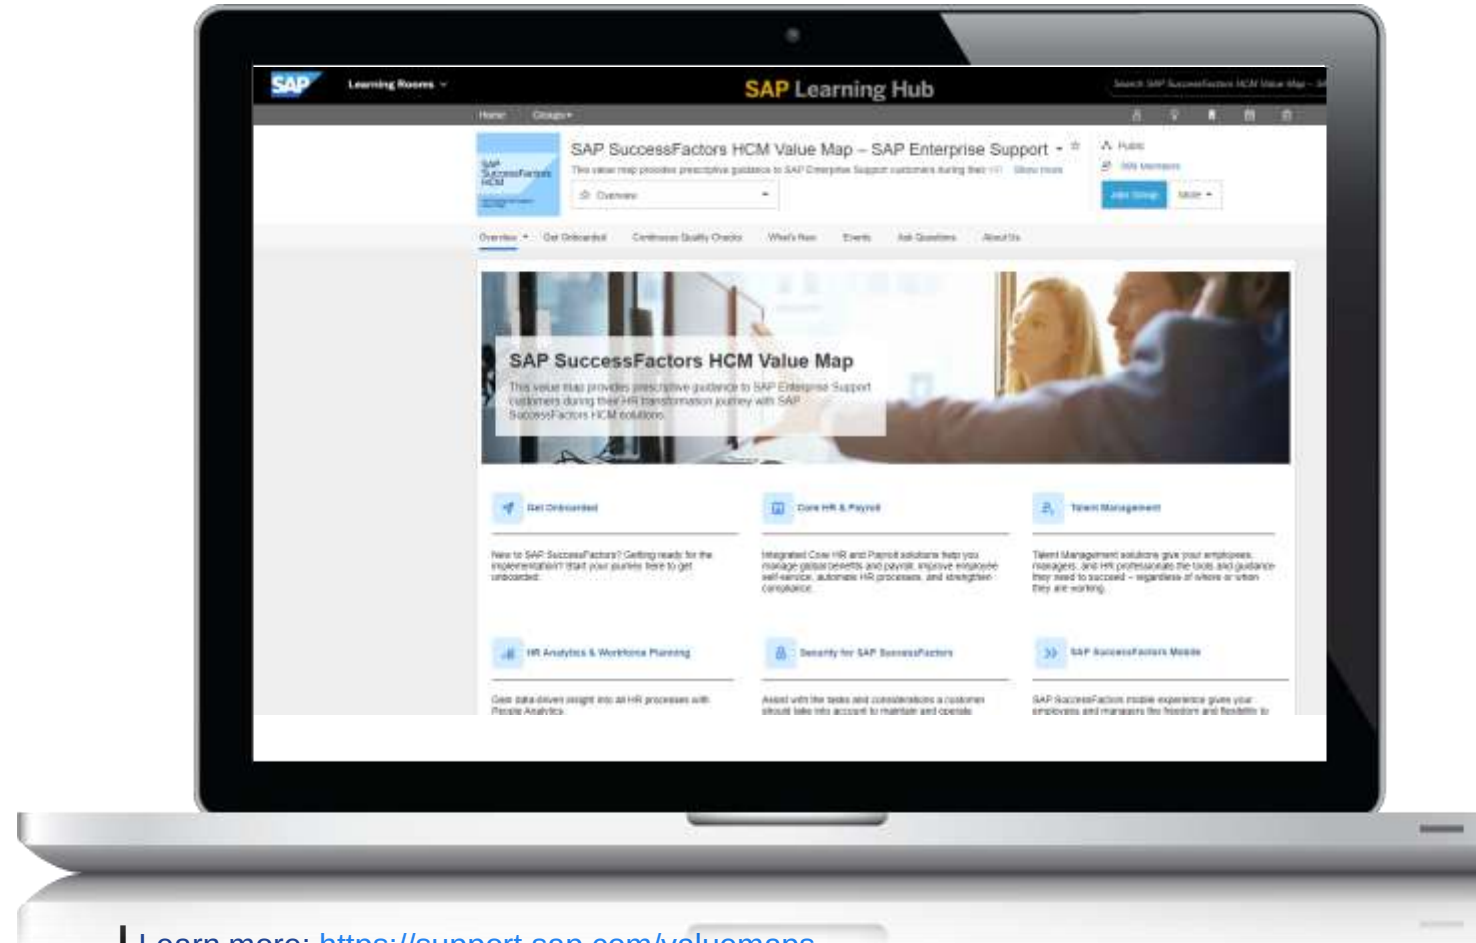

Request access to SAP Learning Hub, edition for SAP Enterprise Support. Watch the [video](#) and refer to our [tutorial](#) to learn how to sign up and use the hub. If you are already registered you should use 'Access Value Maps' button.

Sign Up

Step 2

Access SAP Enterprise Support Value Maps Learning Room platform. If you reach the SAP Learning Hub login page, please login and click on [Access Value Maps](#) again.

Access Value Maps

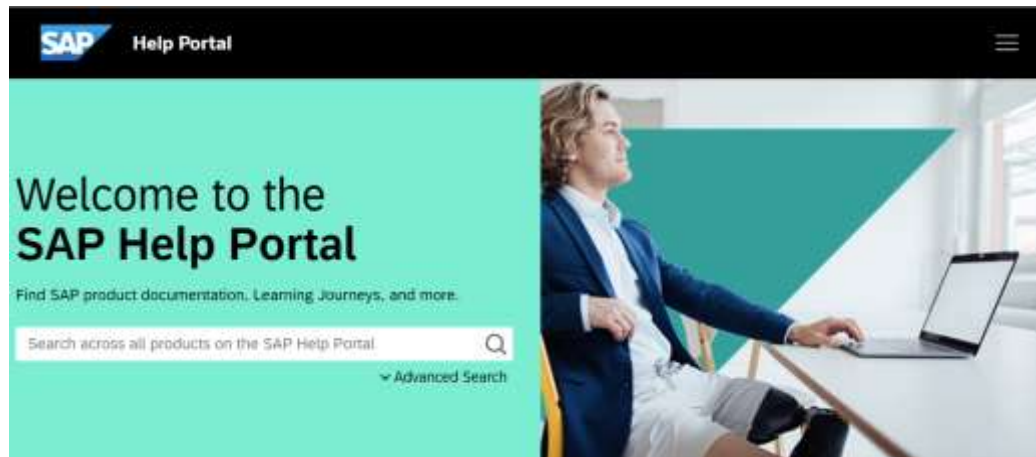

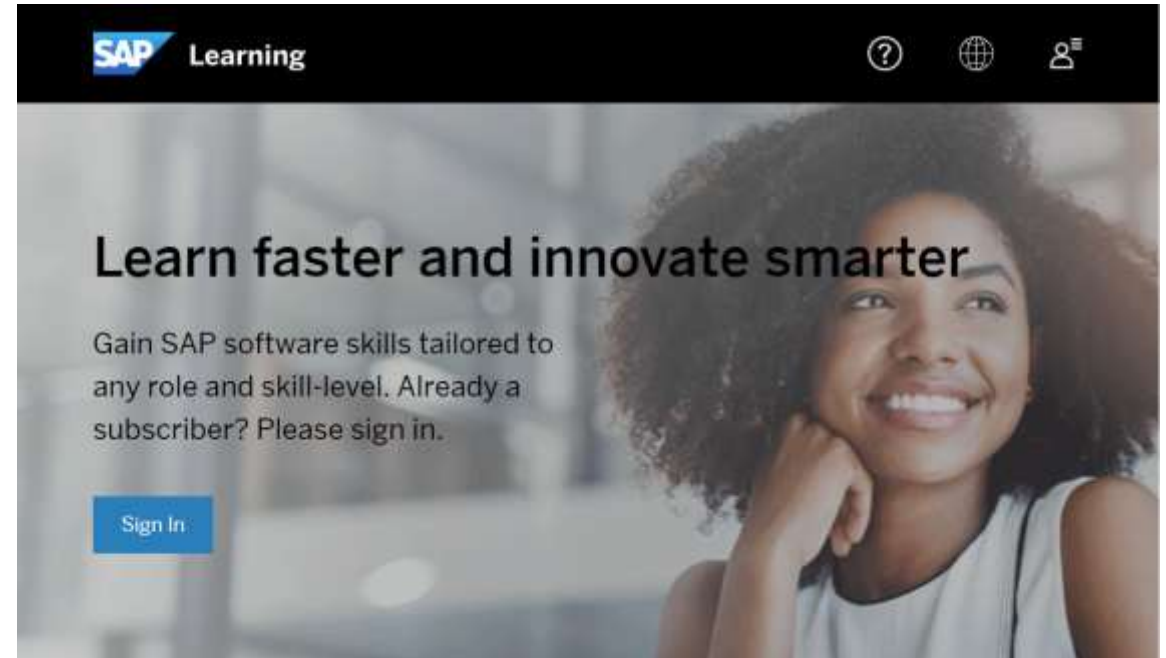

Learn more: <https://support.sap.com/valuemaps>

SAP Learning Hub & SAP Help Portal

[SAP Learning Hub](#) delivers all the training you need through Accreditation Exams and Learning Rooms.

Designed to help your system administrators be self-empowered through top quality training.

[SAP Help Portal](#) makes it easy to navigate and find content for the entire SAP product portfolio such as:

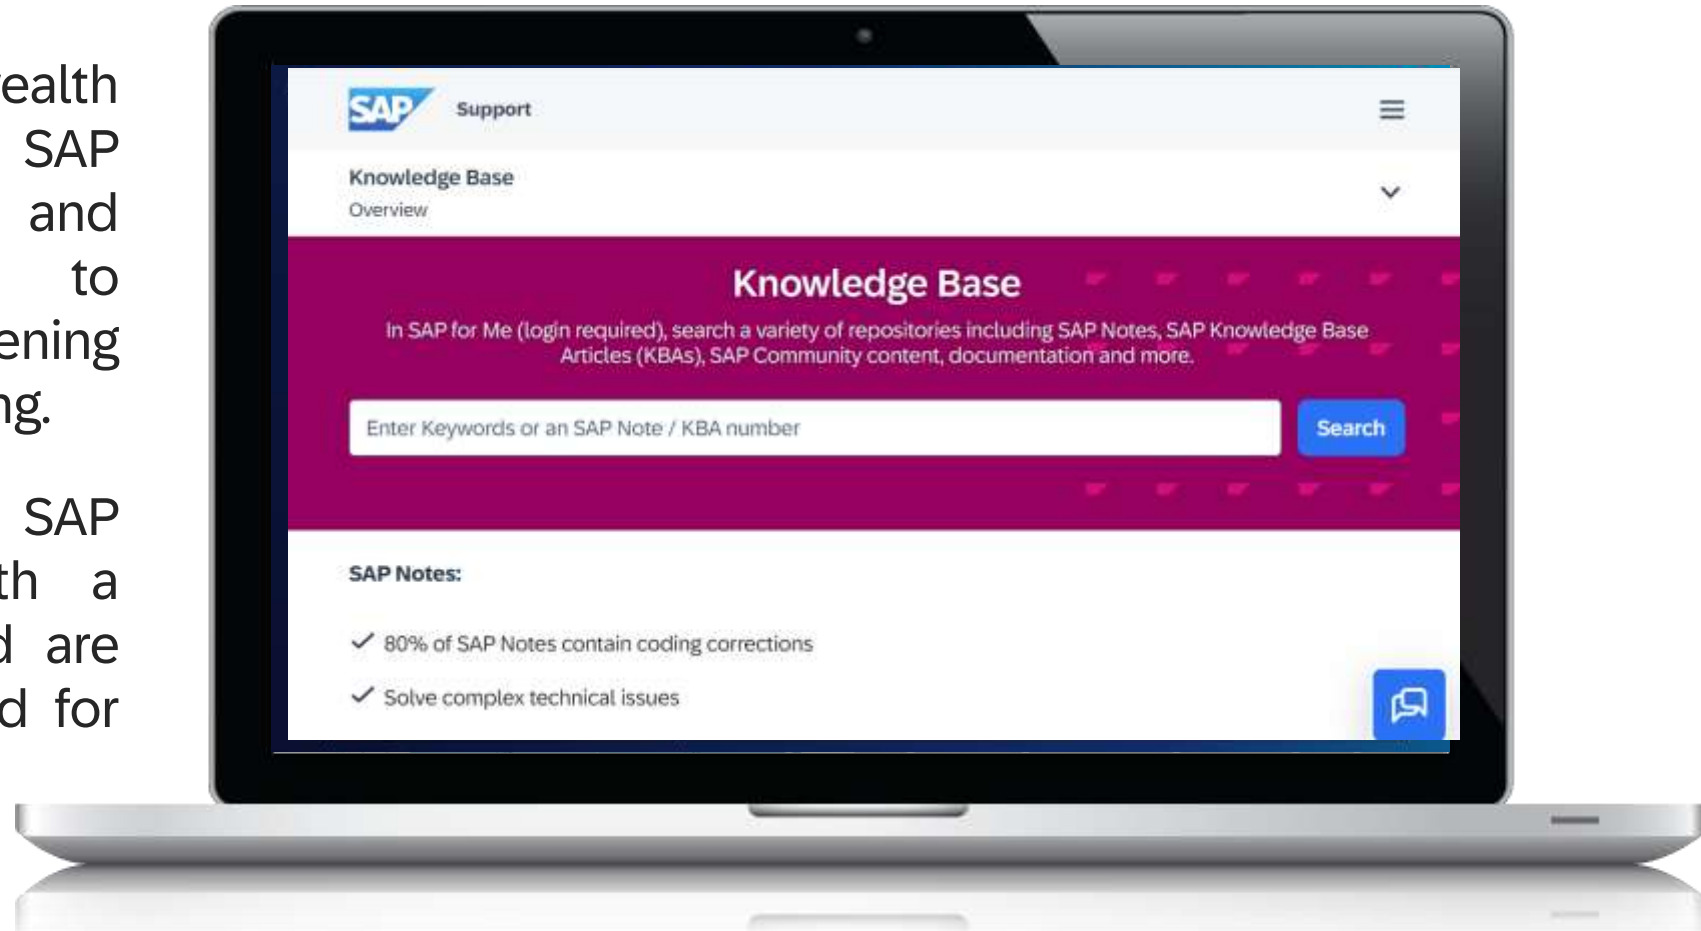

- User Guides
- Admin Guides
- Implementation Guides

These are the formal implementation handbooks designed for advanced users but they have some handy explanations of features and functionality.

Support Knowledge Base Articles

The [Knowledge Base](#) has a wealth of information on various SAP SuccessFactors topics and customers are encouraged to research the KBAs prior to opening a ticket to assist trouble shooting.

KBAs are articles covering all SAP SuccessFactors modules with a range of technical depth and are designed mainly as a help aid for your SAP administrators.

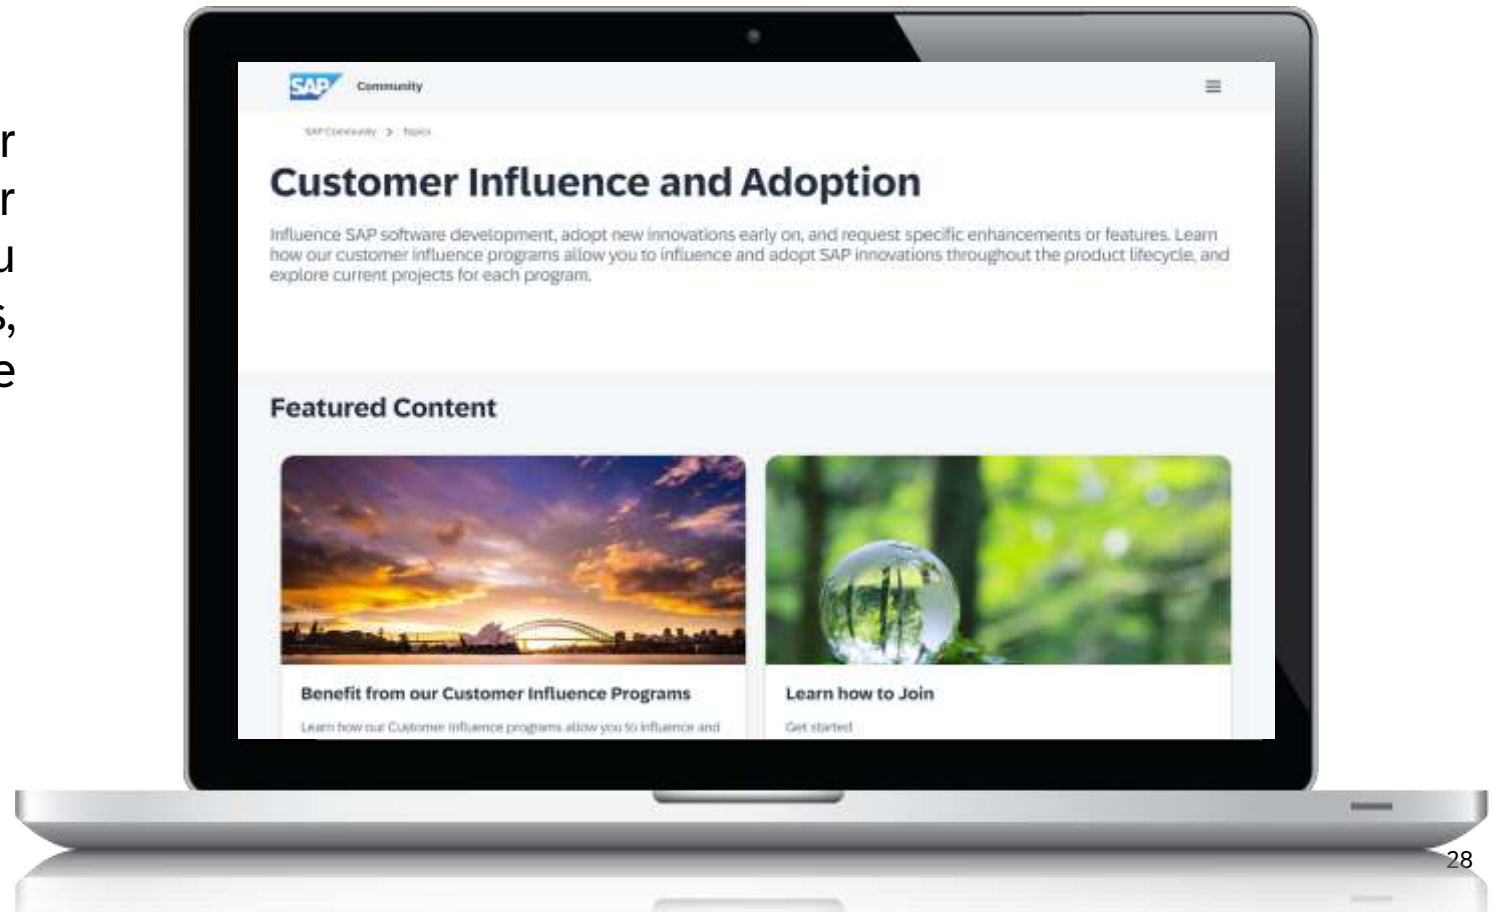

Customer Influence

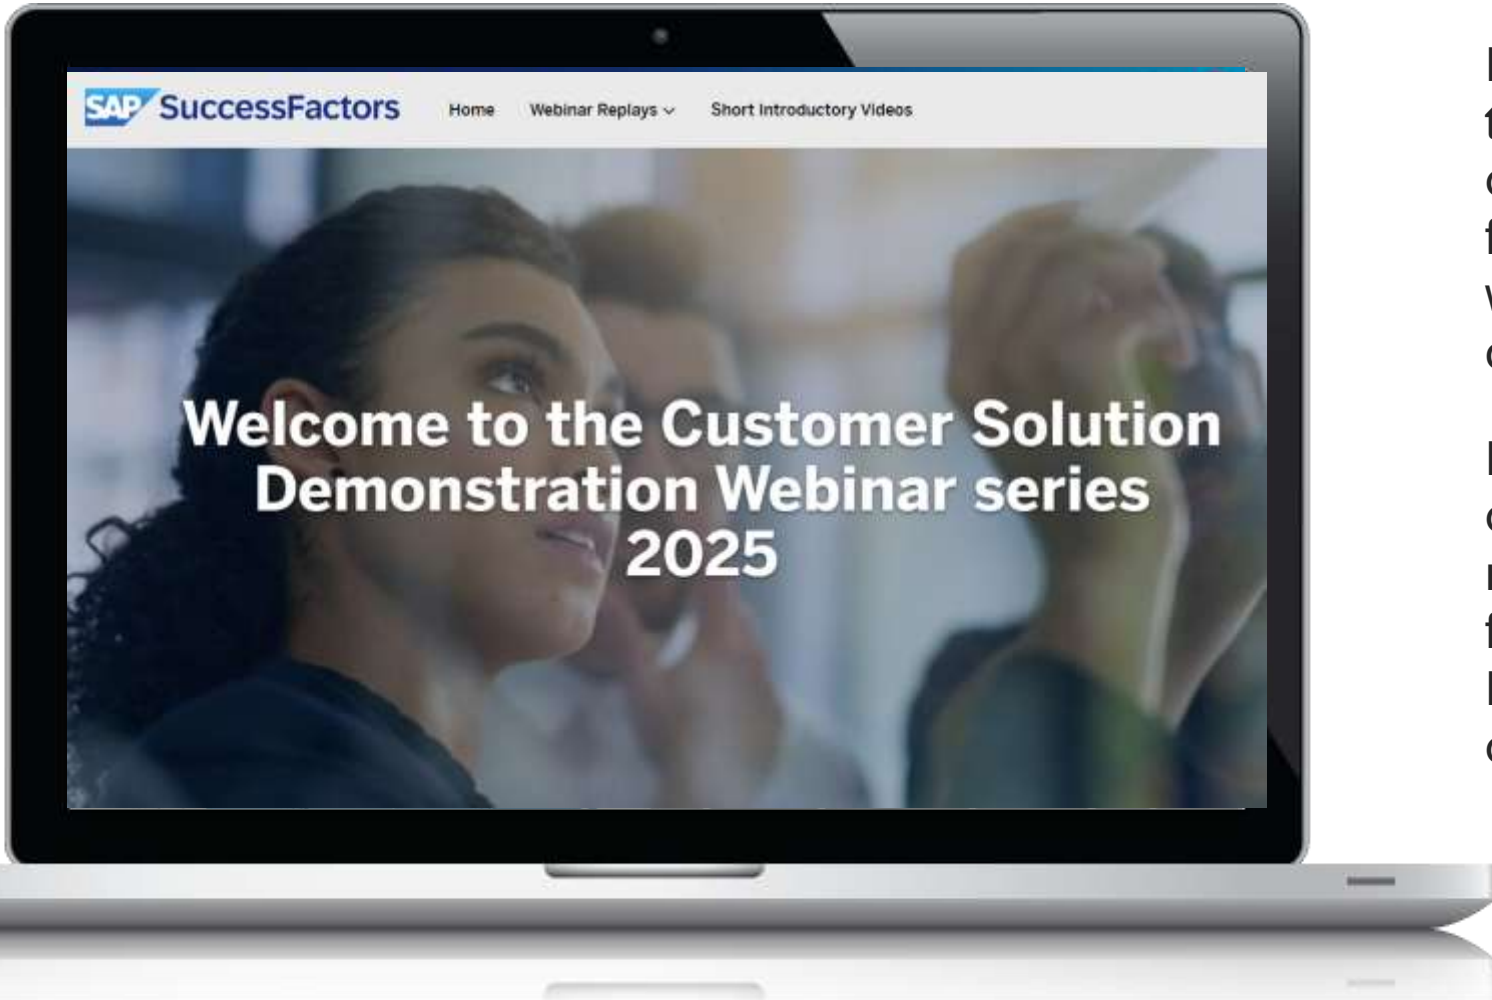

We appreciate customers have the best ideas - as a customer you can submit ideas to the product roadmap.

Access the tool here :<https://www.sap.com/about/customer-involvement/influence-adopt.html>

Once registered you can view and vote for other customers ideas and/or add your own product enhancement ideas. You have an unlimited number of votes, however multiple votes from one organisation only count as one vote.

Overview Solution Demonstration Webinars

Please find all upcoming webinars from the Solution Demonstration series on our [Webinar Announcement Page](#). Feel free to register for any of the upcoming webinars if you are interested in a certain topic.

If you are looking for more information on a topic you can also utilise the recordings from previous series. You can find them on the [Webinar Replay Page](#). Feel free to share within your organization.
